

2023 Impact Report

2023 was a year that we began to see Cambodia awaken from the Covid-19 pandemic. We saw more activity, more connections, more movement toward reaching the 25 provinces of Cambodia

Projects

Details

Outcome

150+

Students received a comprehensive education in Math, Khmer, and English.

Education is a low priority in Cambodia's culture, especially in the rural communities we serve. Our Pursat school and our other education initiatives reach over 150 students and their families daily.

Education provides opportunity, understanding, and skills that allow for people to live full and thriving lives. Our students will be trailblazers in their communities and will help change a nation!

7,000+

Men, women, and children received clean water

A Mission 25 water well is drilled in areas that have the greatest need; rural communities with limited water sources

Thousands of people now have access to clean water for drinking, cooking, and bathing, cutting down on illnesses, and other risks.

25

Communities received development assistance through education, clean water, training, food and resources.

Our network of pastors, leaders, and social workers lead us to communities that need help.

We are able to assist with temporal and eternal needs through these partnerships.

**Additionally*

In 2023 Mission 25 applied for its Cambodian NGO (Non-Governmental Organization) status (to add to our United States 501(c)3 status). Our NGO status was officially approved on January 8th, 2024! We know the Lord will use this status to reach more people and places in Cambodia!
